— HTML5 and CSS3/Sass

— JavaScript and React

— TypeScript

— WordPress (PHP)

— Accessibility (WCAG)

— Git and GitHub

Language skills

— Swedish (native)

— English (fluent)

Who am I?

I design and code websites and applications with the user in mind. I have worked with this professionally for over a decade, sometimes as a pure UX/UI designer, but during most of these years also as a web developer, mainly on the client side. I am very comfortable in the user interface and passionate about creating digital solutions that are intuitive, usable and accessible.

Work experience

Design lead and front-end developer at 84codes

Aug 2020—Feb 2023 / Stockholm (remote)

84codes offers hosting and fully managed servers for message queues, mainly RabbitMQ. During my time there I foremost worked with UX, analysis, UI design and frontend development.

UX/UI-design • Haml (Ruby) • Jekyll • HTML5 • CSS3/Sass • Bootstrap • JavaScript • React • Git and GitHub

Web developer and graphic designer at Storbildsfabriken

Jan 2013—Jan 2018 / Linköping

Storbildsfabriken works with printed and digital communication. My role was mainly to design and develop several websites and interfaces for them, but I also worked with graphic design and marketing.

UX/UI-design • Graphic design and branding • HTML5 • CSS3 • WordPress (PHP) • JavaScript • SEO • Digital marketing

Web designer at Noc Webbyrå

Feb 2011—Sep 2012 / Linköping

Noc Webbyrå delivered websites and digital solutions. My role was mainly as a UI designer, where I worked closely with the customers and had a strategic responsibility. I also helped with web development.

UX/UI-design • HTML • CSS • WordPress (PHP) • Git

Characteristics

— Analytical

— Open-minded

— Creative

— Quality conscious

— Responsible

— Planning

Interests

— Sustainability

— Nature experiences

— Minimalism

— Running and yoga

— Singing and music

— Video games and series

Web designer at Langustus Industrier

July 2009—Feb 2011 / Norrköping

Langustus Industrier was a web agency that mainly delivered websites. As a web designer, I worked closely with customers and assisted with UX/UI design, graphic design and web development, mostly frontend.

UX/UI-design • Graphic design and branding • HTML • CSS • JavaScript

Freelancing web designer

Nov 2008—Dec 2011 / Norrköping and Linköping

Alongside my studies and employment, I was hired for a period by several companies and non-profit organizations to deliver websites.

UI-design • Graphic design and branding • HTML • CSS • WordPress (PHP)

Education

Web development at the Mid Sweden University

Aug 2020—June 2022 / Sundsvall (remote) / 120 hp

I have 97.5 HE credits from the web development program at the Mid Sweden University, which has given me a broad knowledge in web development, from UX to backend.

HTML5 • CSS3/Sass • JavaScript (ES6+) • React • Node.js • TypeScript • SQL • NoSQL • Headless CMS • REST-APIs • PHP • WordPress • C# • .NET • Accessibility (WCAG) • Git • GitHub

Graphic design and communication at Linköping University

Aug 2006—June 2009 / Norrköping / 180 hp

I have a bachelor's degree in graphic design and communication from Linköping University, which gave me a broad knowledge of the field.

Graphic profiling and brands • Typography • Layout • Digital image production • Interaction design • Information design • Marketing and communication
